THE DEDICATION.

Friend William Penn,

I Here present *Thee* with a succinct (yet compleat) Account of the late Improvement, and Present State of the Noble Province, and Fertile Countrey of *Pennsylvania*; with the strange things that have been found there, as the *Salamander-Stone*, and several others, mentioned in this Treatise; discovered since thou camest out of those Parts. I desire *Thee* to excuse me for addressing to *Thee*, such a Plain and Peasant-like Piece; yet however homely or coarse it may appear, Thou wilt find here a true and genuine

The Dedication.

Description of that (once) obscure,
tho' (now) glorious Place. So con-
sidering how generous and candid
a Man *Thou* art, I know thou wilt
bear with my weak and imperfect
Performance, and accept of my good
Meaning and kind Intention, which
may encourage me, in time to come,
to add some more *Memoirs* to this
rough *Essay* of mine. Being unwilling
to tire *Thee* with any long or tedious
Epistle, I take my Leave of *Thee*,

(Most Noble and Excellent
Governor) and am

Thy hearty *Well-wisher*, ever
ready to serve *Thee* on all
Occasions, (in the way of
Truth,)

THE

PREFACE.

Reader,

THere never having been any fair or full Account given to the World of Pennsylvania, I thought the Curious wou'd be gratified with an ample Description thereof.

For tho' this Country has made little Noise in Story, or taken up but small room in Maps, yet thus much with great Justice may be said of it, that notwithstanding the

Difficulties and Inconveniences the First English Colonies met with before they were well settled there, yet the mighty Improvements, Additions, and Advantages that have been made lately there, are well worth Communicating to the Publick, and I am sensible they will be well receiv'd.

The late Tedious, Hazardous, and Expensive War (in which England, in Conjunction with the Allies was so deeply engag'd) was without doubt no small Bar or Obstacle to the Flourishing of this New Country. The great Discouragements the Traders thither lay under, (together

gether with the frequent Capture of their Ships out and home, cou'd not chuse but baulk them in their honest Endeavours, which (now Peace is restor'd) they may pursue with greater Security and Satisfaction,

Nor is there the least question or doubt to be made, but this Noble Spot of Earth will thrive exceedingly, and that in a short time too, and advance considerably to the mighty Advantage of the Present and Future Proprietors, who have, and are willing to give all due Encouragement to any that shall Transport themselves thither.

The Preface.

I cou'd say much here in Praise of that sweet Tract of Land, but having spoken so largely and particularly thereof in the Book it self, I shall forbear the least mention in this place. Nor will I Anticipate or forestal thee, by presenting thee here with what thou wilt find there, with the greater Satisfaction. And so I bid thee heartily farewell.

Gab. Thomas.

PENNSYLVANIA and WEST JERSEY

THE
HISTORY
OF
Pensilvania, &c.

P*ensilvania* lies between the Latitude of Forty and Forty five Degrees: *West-Jersey* on the East, *Virginia* on the West, *Mary-Land* South, and *Canada* on the North. In Length three hundred, and in Breadth one hundred and eighty Miles.

The Natives, or first Inhabitants of this Country in their Original, are suppos'd by most People to have been of the Ten Scattered Tribes, for they resemble the *Jews* very much in the Make

B of

The History

of their *Persons*, and *Tincture* of their *Complexions*: They observe *New Moons*, they offer their *first Fruits* to a *Maneto*, or suppos'd Deity, whereof they have two, one, as they fanſie, above (good,) another below (bad,) and have a kind of *Feaſt of Tabernacles*, laying their *Altars* upon *Twelve Stones*, obſerve a ſort of *Mourning* twelve Months, *Customs of Women*, and many other *Rites* to be toucht (here) rather than dwelt upon, becauſe they ſhall be handled more at large at the latter end of this Treatiſe.

They are very Charitable to one another, the Lame and the Blind (amongſt them) living as well as the beſt; they are alſo very kind and obliging to the *Chriſtians*.

The next that came there, were the *Dutch*, (who call'd the Country *New Neitherland*) between Fifty and Sixty Years ago,

of Pensilvania.

go, and were the first *Planters* in those Parts; but they made little or no Improvement, (applying themselves wholly to Traffique in Skins and Furs, which the *Indians* or *Natives* furnish'd them with, and which they Barter'd for Rum, Strong Liquors, and Sugar, with others, thereby gaining great Profit) till near the time of the Wars between *England* and *Them*, about Thirty or Forty Years ago.

Soon after them came the *Swedes* and *Fins*, who apply'd themselves to Husbandry, and were the first *Christian* People that made any considerable Improvement there.

There were some Disputes between these two Nations some Years, the *Dutch* looking upon the *Swedes* as Intruders upon their Purchase and Possession, which was absolutely terminated in the Surrender made by *John*

The History

Rizeing, the *Svedes* Governour, to *Peter Styreant*, Governour for the *Dutch*, in 1655. In the *Holland War* about the Year 1665. *Sir Robert Carr* took the Country from the *Dutch* for the *Englisch*, and left his Cousin, *Captain Carr*, Governor of that place; but in a short time after, the *Dutch* re-took the Country from the *Englisch*, and kept it in their Possession till the Peace was concluded between the *Englisch* and them, when the *Dutch* Surrendered that Country with *East* and *West-Jersey*, *New-York*, (with the whole Countries belonging to that Government) to the *Englisch* again. But it remain'd with very little Impovement till the Year 1681. in which *William Penn Esq;* had the Country given him by *King Charles the Second*, in lieu of Money that was due to (and signal Service done by) his Father, *Sir William Penn*, and from him bore the Name of *Pennsylvania*.

Since

Since that time, the Industrious (nay Indefatigable) Inhabitants have built a *Noble and Beautiful City*, and called it *Philadelphia*, which contains above two thousand Houses, all Inhabited; and most of them Stately, and of Brick, generally three Stories high, after the Mode in *London*, and as many several Families in each. There are very many *Lanes* and *Alleys*, as first, *Huttons-Lane*, *Morris-Lane*, *Jones's-Lane*, wherein are very good Buildings; *Shorters-Alley*, *Towers-Lane*, *Waller's-Alley*, *Turners-Lane*, *Sikes-Alley*, and *Flowers-Alley*. All these *Alleys* and *Lanes* extend from the *Front Street* to the *Second-Street*. There is another *Alley* in the *Second Street*, called *Carters-Alley*. There are also besides these *Alleys* and *Lanes*, several fine *Squares* and *Courts* within this Magnificent City, (for so I may justly call it.) As for the particular Names of the several

Streets contained therein, the Principal are as follows, *viz.* *Walnut-Street*, *Vine-Street*, *Mulberry-Street*, *Chesnut-Street*, *Sassafras-Street*, taking their Names from the abundance of those Trees that formerly grew there; *High-Street*, *Broad-Street*, *Delaware-Street*, *Front-Street*, with several of less Note, too tedious to insert here.

It hath in it Three *Fairs* every Year, and Two *Markets* every Week. They kill above Twenty *Fat Bullocks* every Week, in the hottest time in Summer, for their present spending in that City, besides many *Sheep*, *Calves*, and *Hogs*.

This City is Situated between *Schookill-River* and the great River *Delaware*, which derives its Name from Captain *Delaware*, who came there pretty early: Ships of Two or Three Hundred Tuns may come up to this City, by either of these two Rivers. Moreover, in this Province are Four Great *Market-Towns*, *viz.* *Chester*,

Chester, the *German Town*, *New-Castle*, and *Lewis-Town*, which are mightily Enlarged in this latter Improvement. Between these Towns, the Water-Men constantly Ply their *Wherries*; likewise all those Towns have *Fairs* kept in them, besides there are several Country Villages, *viz.* *Dublin*, *Harford*, *Merioneth*, and *Radnor* in *Cumbry*; all which Towns, Villages and Rivers, took their Names from the several Countries whence the present Inhabitants came.

The *Air* here is very delicate, pleasant, and wholesom; the *Heavens* serene, rarely overcast, bearing mighty resemblance to the better part of *France*; after Rain they have commonly a very clear Sky, the Climate is something Colder in the depth of Winter, and Hotter in the height of Summer; (the cause of which is its being a Main Land or Continent; the Days also are

two Hours longer in the shortest Day in Winter, and shorter by two Hours in the longest Day of Summer) than here in *England*, which makes the Fruit so good, and the Earth so fertil.

The Corn-Harvest is ended before the middle of *July*, and most Years they have commonly between Twenty and Thirty Bushels of Wheat for every one they Sow. Their Ground is harrowed with Wooden Tyned Harrows, twice over in a place is sufficient; twice mending of their Plow-Irons in a Years time will serve. Their Horses commonly go without being shod; two Men may clear between Twenty and Thirty Acres of Land in one Year, fit for the Plough, in which Oxen are chiefly us'd, though Horses are not wanting, and of them Good and well shap'd. A Cart or a Wain may go through the middle of the Woods, between the
Trees

of Pensilvania.

9

Trees without getting any damage, and of such Land in a convenient place, the Purchase will cost between *Ten* and *Fifteen Pounds* for a Hundred Acres.* Here is much Meadow Ground. Poor People both Men and Women, will get near three times more Wages for their Labour in this Country, than they can earn either in *England* or *Wales*.

What is Inhabited of this Country, is divided into Six *Counties*, though there is not the Twentieth Part of it yet Peopled by the *Christians*: It hath in it several Navigable Rivers for Shipping to come in, besides the Capital *Delaware*, wherein a Ship of Two Hundred Tuns may Sail Two Hundred Miles up. There are also several other small Rivers, in number hardly Credible; these, as the Brooks, have for the most part gravelly and hard Bottoms; and it is suppos'd that there are many other further up in the Country, which
are

are not yet discover'd; the Names of the aforesaid Rivers, are, *Hoorkill-River*, alias *Lewis River*, which runs up to *Lewis Town*, the chiefest in *Sussex County*; *Cedar-River*, *Muskmellon-River*, all taking their Names from the great plenty of these things growing thereabouts; *Mother-kill* alias *Dover-River*, *St. Jones's* alias *Cranbrook-River*, where one *John Curtice* lives, who hath Three Hundred Head of Neat Beasts, besides great Numbers of *Hogs*, *Horses*, and *Sheep*; *Great Duck-River*, *Little Duck-River*, *Black-Bird-River*, these also took their Original Names from the great Numbers of those Fowls which are found there in vast quantities; *Apequinemy-River*, where their Goods come to be Carted over to *Mary-Land*. *St. George's-River*, *Christen-River*, *Brandy-Wine-River*, *Upland* alias *Chester-River*, which runs by *Chester-Town*, being the Shire or County-Town; *Schoolkill-River*, *Frank-*
ford-

ford-River, near which, *Arthur Cook* hath a most Stately Brick-House; and *Nisbamany-River*, where Judge *Growden* hath a very Noble and Fine House, very pleasantly Situated, and likewise a Famous Orchard adjoining to it, wherein are contain'd above a Thousand Apple Trees of various sorts; likewise there is the famous *Derby-River*, which comes down from the *Cumbry* by *Derby-Town*, wherein are several Mills, viz. *Fulling-Mills*, *Corn-Mills*, &c.

There is curious *Building-Stone* and *Paving-Stone*, also *Tile-Stone*, with which latter, Governor *Penn* covered his Great and Stately *Pile*, which he call'd *Pennsbury-House*, the Name it still retains. There is likewise *Iron-Stone* or *Oar*, (lately found) which far exceeds that in *England*, being Richer and less Drossy; some Preparations have been made to carry on an Iron-Work: There is

is also very good *Lime-Stone* in great plenty, and cheap, of great use in Buildings, and also in Manuring Land, (if there were occasion) but Nature has made that of it self sufficiently Fruitful; besides here are *Load-Stones*, *Ising-Glass*, and (that Wonder of Stones) the *Salamander-Stone*, found near *Brandy-Wine-River*, having *Cotton* in Veins within it, which will not consume in the Fire, though held there a long time.

As to *Minerals*, or *Metals*, there is very good *Copper*, far exceeding ours in *England*, being much Finer, and of a more glorious Colour. Not two Mile from the *Metropolis*, are also *Purging Mineral-Waters*, that pass both by *Siege* and *Urine*, all out as good as *Epsom*: And I have reason to believe, there are good *Coals* also, for I observ'd, the *Runs of Water* have the same Colour as that which proceeds from the *Coal-Mines* in *Wales*. Here

Here is curious Diverſion in Hunting, Fiſhing, and Fowling, eſpecially upon that Great and Famous River *Suſkahanah*, which runs down quite through the heart of the Country to *Mary-Land*, where it makes the Head of *Chefepeck-Bay*, in which place there are an Infinite Number of Sea and Land Fowl, of moſt ſorts, viz. *Swans, Ducks, Teal*, (which two are the moſt Grateful and moſt Delicious in the World) *Geefe, Divers, Brands, Snipe, Curlew*; as alſo *Eagles, Tur-kies* (of Forty or Fifty Pound Weight) *Pheafants, Partridges, Pidgeons, Heath-Birds, Black-Birds*; and that Strange and Remarkable Fowl, call'd (in theſe Parts) the *Mocking-Bird*, that Imitates all ſorts of Birds in their various Notes. And for Fiſh, there are prodigious quantities of moſt ſorts, viz. *Shadds, Cats-Heads, Sheeps-Heads, Her-rings, Smelts, Roach, Eels, Perch.*

As

The History

As also the large sort of Fish, as *Whales* (of which a great deal of Oyl is made) *Salmon*, *Trout*, *Sturgeon*, *Rock*, *Oysters*, (some six Inches long) *Crabs*, *Cockles*, (some as big as *Stewing Oysters* of which are made a *Choice Soupe* or *Broth*) *Canok* and *Mussels*, with many other sorts of Fish, which would be too tedious to insert.

There are several sorts of wild *Beasts* of great Profit, and good Food; viz. *Panthers*, *Woolves*, *Fisher*, *Deer*, *Beaver*, *Otter*, *Hares*, *Musk-Rats*, *Minks*, *Wild-Cats*, *Foxes*, *Rackoons*, *Rabits*, and that strange Creature, the *Possam*, she having a false Belly to swallow her Young ones, by which means she preserveth them from danger, when any thing comes to disturb them. There are also *Bears* some *Wolves*, are pretty well destroy'd by the *Indians*, for the sake of the Reward given them by the *Christians* for that

that Service. Here is also that Remarkable Creature the *Flying-Squirrel*, having a kind of Skinny Wings, almost like those of the *Batt*, though it hath the like Hair and Colour of the Common *Squirrel*, but is much less in Bodily Substance; I have (myself) seen it fly from one Tree to another in the Woods, but how long it can maintain its Flight is not yet exactly known.

There are in the Woods abundance of *Red Deer* (vulgarly called *Stags*) for I have bought of the *Indians* a whole *Buck*, (both Skin and Carcass) for two Gills of Gunpowder. Excellent Food, most delicious, far exceeding that in *Europe*, in the Opinion of most that are Nice and Curious People. There are vast Numbers of other Wild Creatures, as *Elks*, *Buffalos*, &c. all which as well Beasts, Fowl, and Fish, are free and common to any Person who can shoot or take them, without any

any lett, hinderance or Opposition whatsoever.

There are among other various sorts of *Frogs*, the *Bull-Frog*, which makes a roaring noise, hardly to be distinguished from that well known of the Beast, from whom it takes its Name: There is another sort of *Frog* that crawls up to the tops of Trees, there seeming to imitate the Notes of several *Birds*, with many other strange and various Creatures, which would take up too much room here to mention.

Next, I shall proceed to instance in the several sorts of Wild Fruits, as excellent *Grapes*, *Red*, *Black*, *White*, *Muscadel*, and *Fox*, which upon frequent Experience have produc'd Choice Wine, being daily Cultivated by skilful *Vinerons*; they will in a short space of time, have very good Liquor of their own, and some to supply their Neighbours, to
their

their great advantage; as these Wines are more pure, so much more wholsom; the Brewing Trade of Sophisticating and Adulterating of Wines, as in *England, Holland* (especially) and in some other places not being known there yet, nor in all probability will it in many Years, through a natural Probity so fixed and implanted in the Inhabitants, and (I hope) like to continue. *Wallnuts, Chesnuts, Filberts, Heckery-Nuts, Hartleberries, Mulberries*, (white and black) *Rasberries, Strawberries, Cramberries, Plumbs* of several sorts, and many other Wild Fruits, in great plenty, which are common and free for any to gather; to particularize the Names of them all, would take up too much time; tire, not gratifie the Reader, and be inconsistent with the intended Brevity of this little Volume.

The common Planting *Fruit-Trees*, are *Apples*, which from a Kernel (without Inoculating) will shoot up to be a large Tree, and produce very delicious, large, and pleasant Fruit, of which much excellent Cyder is made, in taste resembling that in *England* press'd from *Pippins* and *Pear-mains*, sold commonly for between Ten and Fifteen Shillings per Barrel. *Pears*, *Peaches*, &c. of which they distil a Liquor much like the taste of *Rumm*, or *Brandy*, which they Yearly make in great quantities: There are *Quinces*, *Cherries*, *Goosberries*, *Currants*, *Squashes*, *Pumpkins*, *Water-Mellons*, *Muskmellons*, and other *Fruits* in great Numbers, which seldom fail of yielding great plenty. There are also many curious and excellent *Physical Wild Herbs*, *Roots*, and *Drugs* of great Vertue, and very fanative, as the *Sassafras*, and *Sarsaparilla*, so much us'd in Diet-Drinks

Drinks for the Cure of the Venereal Disease, which makes the *Indians* by a right application of them, as able *Doctors* and *Surgeons* as any in *Europe*, performing celebrated Cures therewith, and by the use of some particular *Plants* only, find Remedy in all *Swellings*, *Burnings*, *Cuts*, &c. There grows also in great plenty the *Black Snake-Root*, (fam'd for its sometimes preserving, but often curing the *Plague*, being infused only in Wine, Brandy or Rumm) *Rattle-Snake-Root*, *Poke-Root*, called in *England* *Jallop*, with several other beneficial *Herbs*, *Plants* and *Roots*, which *Physicians* have approved of, far exceeding in Nature and Vertue, those of other Countries.

The Names of the Counties are as followeth; First, *Philadelphia County*; Second, *Bucks County*; Third, *Chester County*; Fourth, *New-Castle County*; Fifth, *Kent County*; Sixth, *Sussex Coun-*

ty. The chiefeft and moft commodious places for raifing Tobacco, as alfo for Breeding and Improving all forts of Cattle, are the Counties of *Kent* and *New-Castle*; the other chiefly depend upon Raifing and Improving *Engliſh Grain*, of which they have a prodigious Encrease, which I have particularly inſtanced in the beginning of this Book, both as to their Quality and Quantity: All thoſe Counties alſo very much abound in all forts of Cattle, both ſmall and great, for the Uſe and Service of Man.

Their forts of Grain are, *Wheat*, *Rye*, *Peaſe*, *Oates*, *Barley*, *Buck-Wheat*, *Rice*, *Indian-Corn*, *Indian-Peaſe*, and *Beans*, with great quantities of *Hemp* and *Flax*; as alſo ſeveral forts of eating Roots, as *Turnips*, *Potatoes*, *Carrats*, *Parſnips*, &c. all which are produc'd Yearly in greater quantities than in *England*, thoſe Roots being much

much larger, and altogether as sweet, if not more delicious; *Cucumbers, Coshaws, Artichokes*, with many others; most sorts of Saladings, besides what grows naturally Wild in the Country, and that in great plenty also, as *Mustard, Rue, Sage, Mint, Tanzy, Wormwood, Penny-Royal* and *Purflain*, and most of the Herbs and Roots found in the Gardens in *England*. There are several Husband-Men, who sow Yearly between Seventy and Eighty Acres of *Wheateach*, besides *Barley, Oates, Rye, Pease, Beans*, and other Grain.

They have commonly *Two Harvests* in the Year; First, of *English Wheat*, and next of *Buck*, (or *French*) *Wheat*. They have great Stocks both of *Hogs* and *Horses*, kept in the Woods, out of which, I saw a *Hog* kill'd, of about a Year old, which weigh'd *Two Hundred* weight; whose *Flesh* is much sweeter, and even

more luscious than that in *England*, because they feed and fatten on the rich (though wild) Fruits, besides those fatned at home by *Peaches*, *Cherries* and *Apples*. Their *Horses* are very hardy, insomuch that being very hot with riding or otherwise, they are turn'd out into the Woods at the same Instant, and yet receive no harm; some Farmers have Forty, some Sixty, and from that Number to Two or Three Hundred Head of *Cattle*: Their Oxen usually weigh Two Hundred Pounds a Quarter. They are commonly fatter of Flesh, and yield more Tallow (by feeding only on Grass) than the Cattle in *England*. And for *Sheep*, they have considerable Numbers which are generally free from those infectious Diseases which are incident to those Creatures in *England*, as the *Rot*, *Scab*, or *Maggots*; They commonly bring forth two *Lambs* at once, some *twise in one Year*,

Wool, and the Wooll is very fine, and thick, and also very white.

Bees thrive and multiply exceedingly in those Parts, the *Sweeds* often get great store of them in the Woods, where they are free for any Body. Honey (and choice too) is sold in the Capital City for Five Pence *per* Pound. Wax is also plentiful, cheap, and a considerable Commerce. Tame Fowls, as *Chickens*, *Hens*, *Geese*, *Ducks*, *Turkeys*, &c. are large, and very plentiful all over this Countrey.

And now for their Lots and Lands in City and Countrey, in their great Advancement since they were first laid out, which was within the compass of about Twelve Years, that which might have been bought for Fifteen or Eighteen Shillings, is now sold for Fourscore Pounds in ready Silver; and some other Lots, that might have been then

Purchased for Three Pounds, within the space of Two Years, were sold for a Hundred Pounds a piece, and likewise some Land that lies near the City, that Sixteen Years ago might have been Purchas'd for Six or Eight Pounds the Hundred Acres, cannot now be bought under One Hundred and Fifty, or Two Hundred Pounds.

Now the true Reason why this Fruitful Countrey and Flourishing City advance so considerably in the Purchase of Lands both in the one and the other, is their great and extended Traffique and Commerce both by Sea and Land, viz. to *New-York, New-England, Virginia, Maryland, Carolina, Jamaica, Barbadoes, Nevis, Monserat, Antego, St. Cristophers, Bermudoes, New-Found-Land, Maderas, Saltetudeous, and Old-England*; besides several other places. Their Merchandize chiefly consists in *Horses, Pipe-*
Staves,

Staves, Pork and Beef Salted and Barrell'd up, Bread, and Flower, all sorts of Grain, Pease, Beans, Skins, Furs, Tobacco, or Pot-Ashes, Wax, &c. which are Barter'd for Rumm, Sugar, Molasses, Silver, Negroes, Salt, Wine, Linen, Household-Goods, &c.

However there still remain Lots of Land both in the afore-said City and Country, that any may Purchase almost as cheap as they could at the first Laying out or Parcelling of either City or Country; which is, (in the Judgment of most People) the likeliest to turn to account to those that lay their Money out upon it, and in a shorter time than the aforementioned Lots and Lands that are already improved, and for several Reasons. In the first place, the Countrey is now well inhabited by the Christians, who have great Stocks of all sorts of Cattle, that encrease extraordinarily, and upon

on that account they are oblig'd to go farther up into the Countrey, because there is the chiefeft and best place for their Stocks, and for them that go back into the Countrey, they get the richest Land, for the best lies thereabouts.

Secondly, Farther into the Countrey is the Principal Place to Trade with the *Indians* for all sorts of *Pelt*, as *Skins* and *Furs*, and also *Fat Venison*, of whom People may Purchase cheaper by three Parts in four than they can at the City of *Philadelphia*.

Thirdly, Backwards in the Countrey lies the *Mines* where is *Copper* and *Iron*, besides other *Metals*, and *Minerals*, of which there is some Improvement made already in order to bring them, to greater Perfection; and that will be a means to erect more Inland Market-Towns, which

which exceedingly promote
Traffick.

Fourthly, and lastly, Because the Countrey at the first, laying out, was void of Inhabitants (except the Heathens, or very few Christians not worth naming) and not many People caring to abandon a quiet and easie (at least tolerable) Life in their Native Countrey (usually the most agreeable to all Mankind) to seek out a new hazardous, and careful one in a Foreign Wilderness or Desart Countrey, wholly destitute of Christian Inhabitants, and even to arrive at which, they must pass over a vast Ocean, expos'd to some Dangers, and not a few Inconveniencies: But now all those Cares, Fears and Hazards are vanished, for the Countrey is pretty well Peopled, and very much Improv'd, and will be more every Day, now the Dove

is

is return'd with the Olive-branch
of Peace in her Mouth.

I must needs say, even the
present Encouragements are ve-
ry great and inviting, for Poor
People (both Men and Women)
of all kinds, can here get three
times the Wages for their La-
bour they can in *England* or
Wales.

I shall instance in a few,
which may serve; nay, and will
hold in all the rest. The first
was a *Black-Smith*, (my next
Neighbour) who himself and
one Negro Man he had, got
Fifty Shillings in one Day, by
working up a Hundred Pound
Weight of Iron, which at Six
Pence *per* Pound (and that is the
common Price in that Coun-
treys) amounts to that Summ.

And for *Carpenters*, both
House and *Ship*, *Brick-layers*, *Ma-
sons*, either of these Trades-Men,
will

will get between Five and Six Shillings every Day constantly. As to *Journey-Men Shoos-Makers*, they have Two Shillings per Pair both for Men and Womens Shooes: And *Journey-Men Taylors* have Twelve Shillings per Week and their Diet. *Sawyers* get between Six and Seven Shillings the Hundred for Cutting of Pine-Boards. And for *Weavers*, they have Ten or Twelve Pence the Yard for Weaving of that which is little more than half a Yard in breadth. *Wooll-Combers*, have for combing Twelve Pence per Pound. *Potters* have Sixteen Pence for an Earthen Pot which may be bought in *England* for Four Pence. *Tanners*, may buy their Hides green for Three Half Pence per Pound, and sell their Leather for Twelve Pence per Pound. And *Curriers* have Three Shillings and Four Pence per Hide for Dressing it; they buy their Oyl at Twenty Pence

Pence *per* Gallon. *Brick-Makers* have Twenty Shillings *per* Thousand for their Bricks at the Kiln. *Felt-Makers* will have for their Hats Seven Shillings a piece, such as may be bought in *England* for Two Shillings a piece; yet they buy their *Wooll* commonly for Twelve or Fifteen Pence *per* Pound. And as to the *Glaziers*, they will have Five Pence a Quarry for their Glafs. The Rule for the *Coopers* I have almost forgot; but this I can affirm of some who went from *Bristol*, (as their Neighbours report) that could hardly get their Livelihoods there, are now reckon'd in *Pennsylvania*, by a modest Computation to be worth some Hundreds, (if not Thousands) of Pounds. The *Bakers* make as White Bread as any in *London*, and as for their Rule, it is the same in all Parts of the World that I have been in. The *Butchers* for killing a Beast, have Five Shillings

Shillings and their Diet; and they may buy a good fat large Cow for Three Pounds, or thereabouts. The *Brewers* sell such Beer as is equal in Strength to that in *London*, half Ale and half Stout for Fifteen Shillings *per* Barrel; and their Beer hath a better Name, that is, is in more esteem than *English Beer* in *Barbadoes*, and is sold for a higher Price there. And for *Silver-Smiths*, they have between Half a Crown and Three Shillings an Ounce for working their Silver, and for Gold equivalent. *Plasterers* have commonly Eighteen Pence *per* Yard for *Plastering*. *Last-Makers* have Sixteen Shillings *per* dozen for their Lasts. And *Heel-Makers* have Two Shillings a dozen for their Heels. *Wheel* and *Mill-Wrights*, *Joyners*, *Brasiers*, *Pewterers*, *Dyers*, *Fullers*, *Comb-Makers*, *Wyer-Drawers*, *Cage-Makers*, *Card-Makers*, *Painters*, *Cutlers*, *Rope-Makers*, *Carvers*, *Block-Makers*, *Turners*, *Button-Makers*,

Makers, Hair and Wood Sieve-Makers, Bodies-Makers, Gun-Smiths, Lock-Smiths, Nailers, File-Cutters, Skinners, Furriers, Glovers, Patten-Makers, Watch-Makers, Clock-Makers, Sadlers, Coller-Makers, Barbers, Printers, Book-Binders, and all other Trades-Men, their Gains and Wages are about the same proportion as the fore-mentioned Trades in their Advancements, as to what they have in England.

Of Lawyers and Physicians I shall say nothing, because this Countrey is very Peaceable and Healty; long may it so continue and never have occasion for the Tongue of the one, nor the Pen of the other, both equally destructive to Mens Estates and Lives; besides forsooth, they, Hang-Man like, have a License to Murder and make Mischief. Labouring-Men have commonly here, between 14 and 15 Pounds a Year, and their Meat, Drink, Washing

Washing and Lodging; and by the Day their Wages is generally between Eighteen Pence and Half a Crown, and Diet also; But in Harveſt they have usually between Three and Four Shilling each Day, and Diet. The *Maid Servants Wages* is commonly betwixt Six and Ten Pounds *per Annum*, with very good Accommodation. And for the *Women* who get their Livelihood by their own Industry, their Labour is very dear, for I can buy in *London* a Cheese-Cake for Two Pence, bigger than theirs at that price, when at the same time their Milk is as cheap as we can buy it in *London*, and their Flour cheaper by one half.

Corn and Flesh, and what else serves Man for Drink, Food and Rayment, is much cheaper here than in *England*, or elsewhere; but the chief reason why Wages of Servants of all sorts is much higher here
D than

than there, arises from the great Fertility and Produce of the Place; besides, if these large Stipends were refused them, they would quickly set up for themselves, for they can have Provision very cheap, and Land for a very small matter, or next to nothing in comparison of the Purchase of Lands in *England*; and the Farmers there, can better afford to give that great Wages than the Farmers in *England* can, for several Reasons very obvious.

As First, their Land costs them (as I said but just now) little or nothing in comparison, of which the Farmers commonly will get twice the increase of Corn for every Bushel they sow, that the Farmers in *England* can from the richest Land they have.

In

In the Second place, they have constantly good price for their Corn, by reason of the great and quick vent into *Barbadoes* and other Islands; through which means *Silver* is become more plentiful than here in *England*, considering the Number of People, and that causes a quick Trade for both Corn and Cattle; and that is the reason that Corn differs now from the Price formerly, else it would be at half the Price it was at then; for a Brother of mine (to my own particular knowledge) sold within the compass of one Week, about One Hundred and Twenty fat Beasts, most of them good handfom large Oxen.

Thirdly, They pay no *Tithes*, and their *Taxes* are inconsiderable; the Place is free for all Persuasions, in a Sober and Civil way; for the Church of *England* and the *Quakers* bear equal Share

in the Government. They live Friendly and Well together; there is no Persecution for Religion, nor ever like to be; 'tis this that knocks all Commerce on the Head, together with high Imposts, strict Laws, and cramping Orders. Before I end this Paragraph, I shall add another Reason why Womens Wages are so exorbitant; they are not yet very numerous, which makes them stand upon high Terms for their several Services, in *Sempstering, Washing, Spinning, Knitting, Sewing*, and in all the other parts of their Employments; for they have for Spinning either Worsted or Linen, Two Shillings a Pound, and commonly for Knitting a very Course pair of Yarn Stockings, they have half a Crown a pair; moreover they are usually Marry'd before they are Twenty Years of Age, and when once in that Noose, are for the most part a little uneasie, and make their

their Husbands so too, till they procure them a Maid Servant to bear the burden of the Work, as also in some measure to wait on them too:

It is now time to return to the City of *Brotherly-Love* (for so much the *Greek* Word or Name *Philadelphia* imports) which though at present so obscure, that neither the *Map-Makers*, nor *Geographers* have taken the least notice of her, tho she far exceeds her Name-fake of *Lydia*, * (having above Two Thousand Noble Houses for her Five Hundred Ordinary or *Celisia*, or *Cælesyria*; yet in a very short space of time she will, in all probability, make a fine Figure in the World, and be a most Celebrated *Emporeum*. Here is lately built a Noble *Town-House* or *Guild-Hall*, also a Handsom *Market-House*, and a convenient *Prison*. The Number of Christians both Old and

Young Inhabiting in that Countrey, are by a Modest Computation, adjudged to amount to above Twenty Thousand.

The Laws of this Countrey, are the same with those in *England*; our Constitution being on the same Foot: Many Disputes and Differences are determined and composed by Arbitration; and all Causes are decided with great Care and Expedition, being concluded (generally) at furthest at the Second Court, unless they happen to be very Nice and Difficult Cases; under Forty Shillings any one Justice of the Peace has Power to Try the Cause. Thieves of all sorts, are oblig'd to restore four fold after they have been Whipt and Imprison'd, according to the Nature of their Crime; and if they be not of Ability to restore four fold, they must be in Servitude till 'tis satisfied. They have Curious Wharfs, as also several large

large and fine Timber-Yards, both at *Philadelphia*, and *New-Castle*, especially at the *Metropolis*, before *Robert Turner's* Great and Famous House, where are built Ships of considerable Burthen; they Cart their Goods from that Wharf into the City of *Philadelphia*, under an Arch, over which part of the Street is built, which is called *Chesnut-Street-Wharf*, besides other *Wharfs*, as *High-Street Wharf*, *Mulberry-Street Wharf*, and *Vine-Sreet Wharf*, and all those are Common Wharfs; and likewise there are very pleasant Stairs, as *Trus* and *Carpenter-Stairs*, besides several others. There are above Thirty Carts belonging to that City, Four or Five Horses to each. There is likewise a very convenient Wharf called *Carpenter's Wharf*, which hath a fine necessary *Crain* belonging to it, with suitable *Granaries*, and *Store-Houses*. A Ship of Two Hundred Tun may

load and unload by the side of it, and there are other Wharfs (with *Magazines* and *Ware-Houses*) which front the City all along the River, as also a Curious and Commodious *Dock* with a *Draw-Bridge* to it, for the convenient Reception of Vessels; where have been built some Ships of Two or Three Hundred Tuns each: They have very Stately Oaks to build Ships with, some of which are between Fifty and Sixty Foot long, and clear from Knots, being very straight and well Grain'd. In this famous City of *Philadelphia* there are several *Rope-Makers*, who have large and curious *Rope-Walks* especially one *Joseph Wilcox*. Also Three or Four Spacious *Malt-Houses*, as many large *Brew-Houses*, and many handsom *Bake-Houses* for Publick Use.

In the said City are several good *Schools of Learning* for Youth, in order to the Attainment

ment of *Arts* and *Sciences*, as also *Reading*, *Writing*, &c. Here is to be had on any Day in the Week, *Tarts*, *Pies*, *Cakes*, &c. We have also several *Cooks-Shops*, both *Roasting* and *Boyling*, as in the City of *London*; *Bread*, *Beer*, *Beef*, and *Pork*, are sold at any time much cheaper than in *England* (which arises from their Plenty) our *Wheat* is very white and clear from *Tares*, making as good and white *Bread* as any in *Europe*. Happy Blessings, for which we owe the highest Gratitude to our Plentiful Provider, the great Creator of Heaven and Earth. The *Water-Mills* far exceed those in *England*, both for quickness and grinding good *Meal*, their being great choice of good *Timber*, and earlier *Corn* than in the aforesaid Place, they are made by one *Peter Deal*, a Famous and Ingenious Workman, especially for inventing such like *Machines*.

All

All sorts of very good *Paper* are made in the *German-Town*; as also very fine *German Linen*, such as no Person of Quality need be ashamed to wear; and in several places they make very good *Druggets*, *Crapes*, *Camblets*, and *Serges*, besides other *Woollen Cloathes*, the Manufacture of all which daily improves: And in most parts of the Countrey there are many Curious and Spacious Buildings, which several of the *Gentry* have erected for their *Country-Houses*. As for the *Fruit-Trees* they Plant, they arrive at such Perfection, that they bear in a little more than half the time that they commonly do in *England*.

The *Christian Children* born here are generally well-favoured, and Beautiful to behold; I never knew any come into the World with the least blemish on any part of its Body, being in the general, observ'd to be better Natur'd, Milder, and more tender

der Hearted than those born in
England.

There are very fine and delightful *Gardens* and *Orchards*, in most parts of this Countrey; but *Edward Shippey* (who lives near the Capital City) has an Orchard and Gardens adjoyning to his Great House that equalizes (if not exceeds) any I have ever seen, having a very famous and pleasant Summer-House erected in the middle of his extraordinary fine and large Garden abounding with *Tulips*, *Pinks*, *Carnations*, *Roses*, (of several sorts) *Lilies*, not to mention those that grow wild in the Fields.

Reader, what I have here written, is not a *Fiction*, *Flam*, *Whim*, or any sinister *Design*, either to impose upon the Ignorant, or Credulous, or to curry Favour with the Rich and Mighty, but in meer Pity and pure

pure Compassion to the Numbers of Poor Labouring Men, Women, and Children in *England*, half starv'd, visible in their meagre looks, that are continually wandering up and down looking for Employment without finding any, who here need not lie idle a moment, nor want due Encouragement or Reward for their Work, much less Vagabond or Drone it about. Here are no Beggars to be seen (it is a Shame and Disgrace to the State that there are so many in *England*) nor indeed have any here the least Occasion or Temptation to take up that Scandalous Lazy Life.

Jealousie among Men is here very rare, and Barrenness among Women hardly to be heard of, nor are old Maids to be met with; for all commonly Marry before they are Twenty Years of Age, and seldom any young

What I have deliver'd concerning this *Province*, is indisputably true, I was an Eye-Witness to it all, for I went in the first Ship that was bound from *England* for that Countrey, since it received the Name of *Pensilvania*, which was in the Year 1681. The Ship's Name was the *John and Sarah* of *London*, *Henry Smith* Commander. I have declin'd giving any Account of several things which I have only heard others speak of, because I did not see them myself, for I never held that way infallible, to make Reports from *Hear-say*. I saw the first Cellar when it was digging for the use of our Governour *Will. Penn.*

I shall now haste to a Conclusion, and only hint a little concerning the *Natives* or *Aborigines*, their *Persons*, *Language*, *Manners*, *Religion* and *Government*; Of *Person* they are ordinarily Tall, Straight, well-turn'd, and true Proportion'd; their Tread strong and clever, generally walking with a lofty Chin. Of Complexion *Black*, but by design, *Gypsie-like*, greasing themselves with Bears-Fat Clarified, and using no defence against the Injuries of the *Sun* and *Weather*, their Skins fail not to be Swarthy. Their *Eyes* are small and black. *Thick Lips and flat Noses* so frequent with *Negroes* and *East Indians*, are rare with them. They have Comely Faces and Tolerable Complexions, some of their *Noses* having a rise like the *Roman*.

Their

Their *Language* is Lofty and Elegant, but not Copious; *One* Word serveth in the stead of *Three*, imperfect and ungrammatical, which defects are supply'd by the Understanding of the Hearers. *Sweet*, of *Noble Sound* and *Accent*. Take here a Specimen.

Hodi hita nee huska a peechi, nee, machi
Pensilvania huska dogmachi, ke-

Thus in *English*.

Farewel Friend, I will very quickly go to
Pensilvania, very cold Moon will come presently,
 And very great hard frosts will come quickly.

I might Treat largely of their *Customs* and *Manners*, but that will not agree with my proposed Brevity.

As soon as their Children are born, they wash them in cold *Water*, especially in cold *Weather*. To harden and embolden them, they plunge them in the River; they find their Feet early, usually at Nine Months they can go. The Boys Fish till Fifteen, then Hunt, and having given proof of their Manhood, by a large return of Skins, they may Marry (else 'tis ashamè to think of a Wife) which is usually at the Age of Seventeen or Eighteen; the Girls stay with their Mothers, and help to hoe the Ground, Plant Corn, bear Burdens, and Marry about Thirteen or Fourteen.

I

Their

Their Houses are *Matts*, or *Barks* of *Trees* set on *Poles*, Barn-like, not higher than a Man, so not expos'd to Winds. They lie upon *Reeds* or *Grass*. In *Travel* they lodge in the *Woods* about a great Fire, with the *Mantle* of *Duffils* they wear wrapt about them, and a few *Boughs* stuck round them.

They live chiefly on *Maze*, or *Indian Corn* roasted in the *Ashes*, sometimes beaten and boyl'd with *Water*, called *Homine*. They have *Cakes*, not unpleasant; also *Beans* and *Pease*, which Nourish much, but the *Woods* and *Rivers* afford them their Provision; they eat Morning and Evening; their *Seats* and *Tables* are the *Ground*; they are reserv'd, apt to resent and retain long: Their *Women* are *Chaste* (at least after *Marriage*) and when with *Child*, will not admit of their

E Hus-

Husbands Embraces any more till Deliver'd. Exceeding Liberal and Generous; Kind and Affable; uneasie in Sicknes, to remedy which, they drink a Decoction of Roots in Spring-Water, forbearing Flesh, which if they happen to eat, it must be the Female; they commonly bury their Kettles and part of their Goods with their Friends when they die, suspecting (poor Souls) they shall make use of them again at the Resurrection. They Mourn a whole Year, but it is no other than blacking their Faces.

Their Government is Monarchical, and Successive, and ever of the Mothers (the surest) side, to prevent a Spurious Issue. The Distaff (as in *France*) is excluded the Regal Inheritance. Their Princes are Powerful, yet do nothing without the Concurrence of their Senate, or Councils,

Councils, consisting chiefly of Old, but mixt with Young Men; slow and deliberate, (*Spaniard-like*) in resolving, naturally wise, and hardly to be out-witted. Their Punishments are Pecuniary. Murder may be aton'd for by Feasts and Presents, in Proportion to the Quality of the Offence, Person, or Sex injur'd; for if a Woman be kill'd, the Mult is double, because she brings forth Children. They seldom quarrel, when Sober, and if Boozy, (which of late they are more apt to be, having learn'd to drink, a little too much Rum of the Christians, to their shame) they readily pardon it, alledging the Liquor is Criminal not the Man.

The way of Worship the *Sweeds* use in this Countrey, is the *Lutheran*; the *English* have four sorts of Assemblies or Religious Meetings here; as first, The

Church of *England*, who built a very fine Church in the City of *Philadelphia* in the Year 1695. Secondly, the *Anabaptists*: Thirdly, the *Presbyterians*, and two sorts of *Quakers* (of all the most numerous by much) one Party held with *George Keith*; but whether both Parties will joyn together again in one I cannot tell, for that Gentleman hath alter'd his Judgment since he came to *England*, concerning his Church-Orders in *Pensilvania*, by telling and shewing them Precepts that were lawful in the time of the Law, but forbidden under the Gospel to pay Tithes, or Ministers to Preach for Hire, &c. As also to sprinkle Infants; and he tells the *Presbyterian Minister*, That he must go to the Pope of *Rome* for his Call, for he had no Scripture for it, and that Water-Baptism and the Outward Supper are not of the Nature of the Everlasting Gospel;

Gospel; nor essential Parts of it, see his *Truth Advanced* page 173. He gives likewise a strict Charge concerning plain Language and plain Habit, and that they should not be concern'd in the compelling part of the Worldly Government, and that they should set their *Negroes* at Liberty after some reasonable time of Service; likewise, they should not take the Advantage of the Law against one another, as to procure them any Corporeal Punishment: These Orders he tells his Followers, would make Distinction between them and *Jews* and Moral Heathens, this was in the Year 1693. in *Pensilvania*: But now the Year 1697. since he came to *England*, his Judgment is chang'd, for he tells his Disciples, that Water-Baptism is come in the room of Circumcision; and by so doing, they would distinguish themselves from either *Jews*, *Pagans*,

or Moral Heathens: He keeps his Meeting once a Week at *Turners-Hall* in *Fill-Pot-Lane*, *London*, on *Sundays* in the Afternoon; he begins between Two and Three of the Clock and commonly ends between Four and Five.

Friendly Reader, by this thou mayst see how wavering and mutable Men of great Outward Learning are, if the Truth of this be by any Body question'd, let them look in the *Creed*, and the Paper against *Christians* being concern'd in *Worldly Government*, and the Paper concerning *Negroes*, that was given forth by the Appointment of the Meeting held by *George Keith* at *Philip James's* House in the City of *Philadelphia*, in *Pensilvania*; and his Letter also in *Mary-Land* against the *Presbyterian Catechism*, Printed at *Boston* in *New-England* in 1695. with the Answer to it bound up to-

together in one Book and in *Truth Advanced*, page 173. And for what relates to him since in *England*, let them look into the *Quakers Argument Refuted, Concerning Water-Baptism and the Lord's Supper*, page 70. And now Reader, I shall take my leave of thee, recommending thee with my own self to the Directions of the Spirit of God in our Conscience, and that will agree with all the Holy Scriptures in its right place; and when we find our selves so, we have no need to take any Thought or Care what any Body shall say of us.
